

**Table 1. Health Home Enrollment by Intervention Quarter**

Quarter	Dates	Enrolled at Any Point in the Quarter
Quarter 1	10/1/13 – 12/31/13	2,156
Quarter 2	1/1/14 – 3/31/14	3,018
Quarter 3	4/1/14 – 6/30/14	3,598
Quarter 4	7/1/14 – 9/30/14	3,883
Quarter 5	10/1/14 – 12/31/14	4,034
Quarter 6	1/1/15- 3/31/15	4,208
Quarter 7	4/1/15 – 6/30/15	4,479
Quarter 8	7/1/15 – 9/30/15	4,743
Quarter 9	10/1/15 – 12/31/15	4,891
Quarter 10	1/1/16 – 3/31/16	5,169
<b>Total Ever Enrolled</b>		<b>7,383</b>

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each quarter were enrolled for at least one day during that quarter

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it, use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

**Table 2. Health Home Enrollment by Intervention Quarter**

Enrollment Length	Health Home Participants
At Least 3 Months	6,794
At Least 6 Months	6,352
At Least 9 Months	5,743
At Least 12 Months	5,135
At Least 15 Months	4,640
At least 18 Months	4,255
At Least 21 Months	3,756
At least 24 Months	3,053
At Least 27 Months	2,156
At Least 30 Months	125

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each quarter were enrolled for at least one day during that quarter

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it, use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each quarter were enrolled for at least one day during that quarter

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it, use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Measures are based on eMedicaid data collected by Health Home providers  
 Data as of March 31, 2016  
 Participants included in the denominator for each quarter were enrolled for at least one day during that quarter  
 Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it, use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Table 7. Number and Percentage of Health Home Participants, by Age, Provider, and Quarter

Measures are based on eMedicaid data collected by Health Home providers  
 Data as of March 31, 2016  
 Participants included in the denominator for each quarter were enrolled for at least one day during that quarter  
 Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it,  
 use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each quarter were enrolled for at least one day during that quarter

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it,

use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Table 8. Number and Percentage of Health Home Participants, by Race, Provider, and Quarter

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each quarter were enrolled for at least one day during that quarter

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it,

use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each quarter were enrolled for at least one day during that quarter

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it, use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each quarter were enrolled for at least one day during that quarter

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it, use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each quarter were enrolled for at least one day during that quarter

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it, use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each quarter were enrolled for at least one day during that quarter

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it, use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Measures are based on eMedicaid data collected by Health Home providers  
 Data as of March 31, 2016  
 Participants included in the denominator for each quarter were enrolled for at least one day during that quarter  
 Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it,  
 use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Table 14. Number and Percentage of Health Home Participants Diagnosed with Chronic Conditions, by Provider and Quarter

Provider ID	Quarter 7 (April 2015 - June 2015)										Quarter 8 (July 2015 - September 2015)										
	Mental Health Condition	Substance use disorder	Asthma	COPD	Diabetes	Heart Disease	Hypertension	Obesity	HIV / AIDS	Hepatitis C	Mental Health Condition	Substance use disorder	Asthma	COPD	Diabetes	Heart Disease	Hypertension	Obesity	HIV / AIDS	Hepatitis C

Measures are based on eMedicaid data collected by Health Home providers  
 Data as of March 31, 2016  
 Participants included in the denominator for each quarter were enrolled for at least one day during that quarter  
 Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it,  
 use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Table 14. Number and Percentage of Health Home Participants Diagnosed with Chronic Conditions, by Provider and Quarter

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each quarter were enrolled for at least one day during that quarter

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it, use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each month were enrolled for the entire month.

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it, use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Table 16. Number and Percentage of Health Home Participants by the Number of Services Received, by Provider and Month

Measures are based on eMedicaid data collected by Health Home providers

Data as of March 31, 2016

Participants included in the denominator for each month were enrolled for the entire month.

Since providers can enter new data into eMedicaid for any period of time as well as revise data for a limited time period after entering it, use of these updated datafiles may result in estimates for Quarter 1 through Quarter 8 that differ from prior reports.

Measures are based on MMIS2 data

Data as of March 31, 2016

Please consider the utilization data as preliminary because there is insufficient run-out for claims/encounter submission.

MCO encounters require at least 6 months of run-out, and FFS claims require at least 12 months of run-out. These measures will be revised to include complete data in future reports.

Participants are only included in the denominator if the period of time that has passed since the participant's enrollment date is greater than or equal to the measurement quarter.

For example, participants included in the Quarter 3 table had at least 3 quarters pass since their enrollment date.

Measures are based on MMIS2 data

Data as of March 31, 2016

Please consider the utilization data as preliminary because there is insufficient run-out for claims/encounter submission.

MCO encounters require at least 6 months of run-out, and FFS claims require at least 12 months of run-out. These measures will be revised to include complete data in future reports.

Participants are only included in the denominator if the period of time that has passed since the participant's enrollment date is greater than or equal to the measurement quarter.

For example, participants included in the Quarter 3 table had at least 3 quarters pass since their enrollment date.

Measures are based on MMIS2 data

Data as of March 31, 2016

Please consider the utilization data as preliminary because there is insufficient run-out for claims/encounter submission.

MCO encounters require at least 6 months of run-out, and FFS claims require at least 12 months of run-out. These measures will be revised to include complete data in future reports.

Participants are only included in the denominator if the period of time that has passed since the participant's enrollment date is greater than or equal to the measurement quarter.

For example, participants included in the Quarter 3 table had at least 3 quarters pass since their enrollment date.

At least 10 Quarters After Enrollment	125	0	0.0%			

Measures are based on MMIS2 data

Data as of March 31, 2016

Please consider the utilization data as preliminary because there is insufficient run-out for claims/encounter submission.

MCO encounters require at least 6 months of run-out, and FFS claims require at least 12 months of run-out. These measures will be revised to include complete data in future reports.

Participants are only included in the denominator if the period of time that has passed since the participant's enrollment date is greater than or equal to the measurement quarter. For example, participants included in the Quarter 3 table had at least 3 quarters pass since their enrollment date.

The inclusion criteria for this measure depends on ICD-9 diagnosis codes, therefore estimates of occurrences since 10/1/2015, after which Medicaid providers switched to (or began using) ICD-10 diagnosis codes, are not reliable.

Measures are based on MMIS2 data

Data as of March 31, 2016

Please consider the utilization data as preliminary because there is insufficient run-out for claims/encounter submission.

MCO encounters require at least 6 months of run-out, and FFS claims require at least 12 months of run-out. These measures will be revised to include complete data in future reports.

Participants are only included in the denominator if the period of time that has passed since the participant's enrollment date is greater than or equal to the measurement quarter.

For example, participants included in the Quarter 3 table had at least 3 quarters pass since their enrollment date.

The inclusion criteria for this measure depends on ICD-9 diagnosis codes, therefore estimates of occurrences since 10/1/2015, after which Medicaid providers switched to (or began using) ICD-10 diagnosis codes, are not reliable.
