

CMS 1500 Update

*State of Maryland to begin accepting new forms **April 1, 2014***

Maryland Medicaid will accept **only** the revised CMS 1500 form (version 02-12) beginning April 1, 2014.

After April 1, 2014, Maryland Medicaid will not accept the 08-05 version of the CMS 1500 form.

Providers must continue to use ICD-9 codes to bill for dates of service through September 30, 2014. For dates of service beginning October 1, 2014, ICD-10 codes will be the only acceptable codes to complete the 02-12 version of the CMS 1500 form, and all other claim forms. Maryland Medicaid will update its current CMS 1500 Billing Instructions in the coming months to account for these changes.

For general information about changes to the CMS 1500 form, including form purchase information, please visit **nucc.org**.
