

Section 2 Maryland EPSDT Preventive Health Schedule Care

D. HEARING, VISION, AND DENTAL SCREENING SERVICES

Assessment of vision, hearing, and dentition is part of the full scope of services expected during a preventive care visit to the PCP. Services of a qualified specialist may be indicated when vision, hearing or dental problems are identified by the PCP. A formal written referral from the PCP or pre-authorization from the MCO is not required when these specialty services are indicated. Dental-related customer services are now provided through *Scion Dental, Inc*¹, not an MCO, for all Maryland Medicaid participating enrollees. Screening results from qualified specialists may be included in the medical record maintained by the PCP as part of the Healthy Kids visit.
